**A. and M. Hazing Investigating Committee Report.**

Hon. Lynch Davidson, President of the Senate, Austin, Texas.

Dear Sir: We, your committee appointed pursuant to Senate Resolution No. 44 to conduct a full, fair and thorough investigation concerning the conduct of the student body of A. and M. College with reference to hazing and brutal and inhuman treatment of students of that institution by other students, beg leave to submit to the Senate the following report:

Our investigation has consisted of three hearings: the first of which was held at Austin on February 16, 17 and 18; the second of which was conducted at A. and M. College, College Station, Texas, upon February 25th and 26th; and the last of which was conducted at Austin, Texas, on March 4, 1921. At the first hearing we examined and took the testimony of nineteen witnesses; at the second we examined and took the testimony of fifteen witnesses; and at the third we examined and took the testimony of four witnesses. Out of the first thirty-one witnesses summoned, twenty-eight of whom had left A. and M. College since September 1, 1920, only sixteen responded by appearing before the committee. However, from this number, coupled with the information we have been able to obtain from other witnesses who were still students at A. and M. College, we have been able to ascertain definite information relative to the general conditions prevailing at A. and M. College during the current school year, as well as considerable specific information concerning students who have left the institution.

We have found that hazing in some form is almost universally practiced by the Sophomores upon the Freshmen of that institution. Its most prevalent form is that of spanking, paddling, or whipping of Freshmen by Sophomores and sometimes by other upper classmen, with belts, boards, paddles, brooms, and bayonets. As conducted, according to the testimony adduced, we believe it is in violation of the penal laws of the State. We do not believe, however, that many of the boys practicing it realize that in so doing they are guilty of violating the spirit of the hazing statute.

We find that in most instances

such hazing is committed in the spirit of mischief, or to perpetuate a college tradition, but that some abuses have grown out of the practice. At least three of the witnesses before the committee testified that they left A. and M. College largely, if not primarily, on account of being excessively or inconsiderately whipped by upper classmen. It is not an unusual occurrence for Freshmen to be out of their rooms at night in the early part of the fall session and remain out of them during study hours because of the fear that they would be hazed by the Sophomores. One witness testified that by reason of the fear of hazing he slept on a bench on the campus all one night shortly after entering A. and M. College last September, rather than go to his room and run the risk of being paddled. Some have sworn that hazing as practiced has distracted their minds to such an extent as to interfere with their studies. Others have testified that they have been so severely whipped by upper classmen that marks and bruises were left on their bodies, and as a result of which they could not sit down with comfort for a few days.

We find that the President, Dr. Bizzell, and his commandant, Major Ashburn, have used all means at their command, to stamp out hazing in all its forms at A. and M. College, and that under their efforts and administration conditions along this line have materially improved in the last few years and are continuing to do so. We find that there exists a concerted effort on the part of both the Freshmen and the Sophomores to keep all forms of hazing concealed from the disciplinary authorities; that with expulsion as the certain penalty where hazing is disclosed, and the natural aversion of the average boy to cause the dismissal of a fellow student from school in such a discreditable manner, it is practically impossible for the disciplinary authorities to secure definite information from a student who has been hazed, no matter how severe it may have been. With students housed in dormitories of four stories each it is not a very difficult matter for them to avoid detection in violating regulations.

Though some cases have amounted to flagrant abuses, we believe that most of the reports as to hazing in A. and M. College during the past

year which have gone out to the people of Texas, have been magnified and largely exaggerated. We find that these reports, many of which are only partly true, have tended to bring A. and M. College into disrepute, and to reflect discredit on the institution, and upon its President and faculty. We believe that this discredit thus caused is unjust and unfair to the institution and especially to the President and faculty. We have found Dr. Bizzell and Major Ashburn men of the highest type, eminently qualified for the work they are doing, able, efficient, devoted to the institution and the student body, and universally loved, respected and admired by the students of the college.

We find that the forms of hazing as now practiced at A. and M. College, especially that form which manifests itself in whipping of the Freshmen by the Sophomores, though often exaggerated in the public mind, is in fact often abused, and that it has brought, and is bringing, the name of the institution into some disrepute and is interfering with the highest efficiency of the school. We find a spirit of love, loyalty and devotion among the students as a whole for their Alma Mater that is most commendable; and we believe that the most effective and surest method of stamping out the practice of whipping Freshmen by upper classmen can best come through the realization by the student body that such initiations are unnecessary survivals of traditions and that they have been and are being abused in such manner as to bring just criticism upon the institution, rather than to seek to repress or stamp out such practices by a more rigid enforcement of discipline of the school or of the hazing statute.

From the information obtained, the committee is of the opinion that the continuation of the practices of hazing in its more serious forms, is partly due to the influence of the Alumni of the institution. This we think is brought about by the fact that they unduly emphasize and magnify the manner and fact of their own hazing while students. By the assurance that it created good fellowship in their day they unduly impress the fact of its existence on the minds of the students, and lead them to believe that it is one of the essentials of their college life. We believe

that the Alumni of the institution can render it and the State of Texas a great service in an effort to discredit the practices that now exist, and through their influence do a great deal towards creating sentiment in the student body against abuses and effectively assist in stamping out hazing in all its forms.

Though the law against hazing was passed in 1913, we have not had brought to our attention any instance of a prosecution for its violation. The law is very stringent, and makes no distinction as to degrees of hazing. So long as hazing in any form, whether mild or severe, constitutes a violation of this law, the disciplinary authorities at the college have no alternative but to visit the extreme penalty of expulsion upon any student found guilty of practicing hazing in any form. This being true, the President and faculty of the institution can not make any discrimination as between persons, circumstances, or degrees of hazing. It is the opinion of the committee that some forms of hazing as practiced in A. and M. College, and which are looked upon by the student body as innocent initiations, are improperly included within the penal statute, and could be more effectively dealt with if left to the board of trustees, and to the president and faculty of the institution, as wholly matters of internal discipline. We believe that if these lesser infractions, which do not in their nature involve such moral turpitude as to dignify them as violations of the penal law should be left entirely to the disciplinary authorities of the school in order that they might mete out to them such punishment as the circumstances might warrant, without the necessary expulsion of the guilty student. So long as the present stringent law against hazing remains, and expulsion is the sure punishment for its violation by the students, regardless of their motive in its violation, it will be practically impossible for the disciplinary authorities of the school to secure from the students a disclosure of the real facts when the students realize that such disclosure will result in the expulsion and discredit of a fellow student. Whereas, if the present law were so clarified or amended as to visit this severe penalty only on the cases which would warrant it, and not to all alike, and the student body were

brought to realize that their punishment would be meted out to them according to the seriousness of the offense, rather than the visitation of expulsion regardless of whether it was serious or merely a minor infraction, we believe that it would be much easier for the disciplinary authorities of the school to obtain from the students the real truth about conditions, and would enable them more effectively to improve such conditions. That is to say: We are of the opinion that the present law, through its drastic provisions, without some modifications, is in effect serving to defeat its own ends, and we believe that its amendment so as to give the

disciplinary authorities of the college more discretion and latitude in their application of the punishment would result in a further stamping out of hazing conditions as they now exist.

Respectfully submitted,

J. H. BAUGH,  
Chairman Investigating Committee.

Senator Parr dissents from the majority report and gives notice of a minority report at the next session of the Legislature.

Austin, Texas, March 10, 1921.  
Hon. Lynch Davidson, President of the Senate, and Hon. Chas. G. Thomas, Speaker of the House of Representatives.

Sir: We, your Free Conference Committee selected and appointed to adjust the differences between the Senate and the House on

Have had the same under consideration, and beg leave to report as follows, to-wit:

We recommend that said bill be

passed with the following (committee) amendments:

1. Strike out all after the enacting clause and insert in lieu thereof the following:

Section 1. The Governor of the State of Texas shall appoint a commission of three citizens of this State to act as a Board to negotiate for and purchase lands adjacent to the University campus, in the city of Austin herein described for the use of the University of Texas, the title of said land to be taken in the name of the Board of Regents of the University of Texas, and their successors, and when the same is acquired, shall be subject to the management and control of the Board of Regents in the same manner and to the extent that the lands now held by the University of Texas, in the city of Austin, are held and controlled. The official name of said Board shall be "The University Land Acquisition Board," and said Board, when appointed, shall appoint its own presiding officer.

Sec. 2. The sum of one million, three hundred fifty thousand (\$1,350,000) dollars is hereby appropriated out of any funds in the State Treasury not otherwise appropriated, to be expended by the Commission designated in Section One hereof for the purpose of paying for the lands acquired by the Commission under the terms of this Act: It being hereby specifically provided that no part of the sum hereby appropriated shall be available until the bond provided for in Section 10 has been executed and approved by the Commission herein provided for as to solvency; but after said bond has been executed and approved lots, tracts and parcels of the land hereinafter described may be purchased and the purchase price paid to the several owners as the titles to same are accepted.

Sec. 3. The said Board shall purchase the following land:

Sec. 4. There is excepted from the lands herein described all property which now belongs to the University of Texas, and such as is now occupied by religious, charitable or eleemosynary institutions.

Sec. 5. The Commission herein provided for shall require that each deed that it takes to said property described in this Act shall contain a clause by which the grantor or grantors in said deed consent that the Board of Regents of the University of Texas may vacate, alter, change, take or abandon any street or alley or other public ground in any of the territory embraced in any of the tracts herein described without payment of further consideration to such grantor or grantors than the consideration recited in said deed; and that such grantor or grantors for said consideration waive and release all claims for damages or claims of any other character, that they might otherwise assert because of such vacating, alteration, changing, taking or abandonment of such streets, alleys or other public place. The Commission and the Board of Regents of the University of Texas

are hereby granted the right to vacate, alter, change, take or abandon any street, alley or other public dedication in any of the territory herein described; and the right to acquire said privilege by condemnation proceedings, of the character, and by the procedure, hereinafter mentioned, whenever the Commission fails to acquire such rights by voluntary deeds of grantors as hereinabove provided for. It shall not be necessary for the Commission or said Board of Regents to obtain the consent of the city of Austin or any other public authority, as a prerequisite for such action.

Sec. 6. The Commission herein provided for shall take deeds in fee to each and every lot, block, piece or parcel purchased by them, said deed to be in the name of the Board of Regents of the University of Texas and their successors in office, for the use and benefit of the University of Texas and the State of Texas, and said deed shall convey the title to the land described and any easement or right that the grantor may have in any abutting street or alley. The Commission shall purchase such land upon agreement directly between them and the different owners and at the lowest price possible to be agreed upon between the Commission and the owners, and if the purchase price of any lot or parcel of land cannot be agreed upon they are hereby authorized and empowered and it shall be their duty to institute condemnation proceedings in the name of the State of Texas for the use of the University of Texas for such land, and shall proceed with said condemnation in the manner provided by law in the exercise of the power of eminent domain by railroad companies in acquiring rights of way, and such power of eminent domain is hereby given said Board of Regents. The Commission is hereby authorized and empowered to contract for the property described in the tracts of land herein and after the title of said property is acquired the disposition of the improvements of said property shall vest and be subject to the control of the Board of Regents and their successors, and they shall hold said lands and improvements thereon with the same authority and extent as the present lands in the city of Austin used and occupied and controlled by the University of Texas are held. In the event that any of the property with improvements cannot be purchased at a

reasonable price in the opinion of the Commission, the Commission is authorized to purchase said property without the improvements.

Upon the acquisition of the lands above described by the Board of Commissioners herein created, and the delivery of the same to the Board of Regents, the said Board of Regents and their successors shall have the right to lease the buildings and improvements situated upon the land acquired for such sum for such period of time as in their judgment is best and the revenue derived therefrom shall be deposited and become a building fund and shall be expended for no purpose other than to construct permanent buildings to be used for the purposes of the University. It is expressly provided, however, that no lease of any of said property shall be for a longer term than five years. The Board of Regents is hereby expressly empowered to dismantle, tear down and dispose of or remove any and all improvements from such land as may be acquired under the provisions of this Act.

Sec. 7. The purchase price of any and all lands acquired under the provisions of this Act shall be paid directly to the owners of said lands by vouchers drawn by the Comptroller of the State against the fund herein provided, upon the written order of at least two of the Commissioners appointed under the terms of this Act, and no voucher shall be drawn for the purchase of any of the land described in this Act unless the deed for the land from the owners approved by the Attorney General, accompany the order of the Commissioners to the Comptroller for the voucher.

Sec. 8. The appropriation herein made shall be entered upon the books of the Treasurer of the State of Texas as to the credit of the University Land Acquisition Board.

Sec. 9. The Commissioners herein provided for shall receive the sum of ten dollars per day for such time as they may be actually engaged in the work incident to the acquisition of the property herein described not to exceed 150 days, and said Commissioners are hereby authorized to expend such sums as they may deem necessary for clerical assistance and the making or having made such surveys and scientific investigation of the different tracts of land herein described as they may deem necessary, not to exceed

five thousand dollars. All moneys expended or paid out as provided for in this Section shall be paid out of the fund herein provided for and set apart.

Sec. 10. It is hereby made the duty of the Commission provided for before purchasing the land herein described to require a guaranty bond from the Chamber of Commerce or citizens of Austin, guaranteeing to said Commission that the land herein described can be secured by said Board for the purposes herein specified at the sum by this bill appropriated; said bond to be drawn by the Attorney General of the State of Texas in such words, tenor and effect as in his opinion will be binding and to be approved by him, it being the intention of this Section to guarantee that the whole of said tract, together with the expense of securing same, can be acquired at a sum not exceeding the sum herein appropriated. Said sum to cover all condemnation proceedings and the cost incident thereto that may be necessary for the acquisition of the property, and the expense above provided for, and the Attorney General of the State of Texas is hereby authorized and directed to bring and prosecute all condemnation proceedings that may be necessary under the terms of this Act at the request of the Commission herein appointed, it being specifically provided that no part of the appropriation herein made shall become available until the bond herein provided for has been executed and approved, and said bond herein provided for must be executed and approved on or before June 15, 1921.

Sec. 11. The Commission shall not purchase any tract of said land by conveyance except after approval of a designated representative of the signers of the bond herein provided for, or by condemnation after failure to secure such approval.

Sec. 12. The fact that the University campus is inadequate and it is impossible to facilitate the growth and expansion of the University, and that the land herein described is adjacent to, available and particularly adapted for use as a University site in connection with the present campus, and the fact that it is now an opportune time for the purchase of lands herein mentioned, creates an emergency and an imperative public necessity that the constitutional rule requiring bills to be read on three several days in each house be suspended and that this Act

shall take effect and be in force from and after its passage and such rule is hereby suspended. and it is so enacted.

We further recommend that the Senate and the House concur in said amendments to said Senate Bill No. 111.

Legislature.

Dear Co-workers. Fifty-three days of comradeship and counsel have swiftly glided by since we became by law comrades-in-arms to fight the battles of peace for a clean, efficient and economical government in Texas. During these busy days laws have been written by the pen of legislation into the statutes of the State which will no doubt be helpful and of far-reaching service to the people. You have by your votes named this day for final adjournment. No appropriation having been made for the maintenance of the government for the next two years necessitates a reconvening, at a later date, of your honorable body in a special session. On account of the shortness of the regular session, the multitudinous bills introduced, the crowded condition of your legislative calendar, in connection with other causes, you were precluded from a careful and thorough consideration of some legislative matters of interest and State-wide importance. A full and free discussion of legislative questions by and with the people is conducive to wholesome legislation. In ancient times those who enacted laws did not think of nor consult with those who were to live under and support the laws. That day has happily and forever passed. We all get helpful ideas and wholesome suggestions as to the wise course to pursue in matters of state by talking to and consulting with the people. In order, therefore, that all the people, those who are to make the laws, and those who are to obey and uphold the laws, may have plenty of time to seriously and thoroughly consider, individually and collectively, as to what is the wise and helpful thing to do in regard to legislative matters at our coming special session, I deem it proper, even at this early date, to say that when we come together in extraordinary session, I shall submit to you for your deliberation a law enforcement program, among other things, the following:

**Law Enforcement Program.**

First. The absolute repeal of the suspended sentence law.

Second. The enactment of a law providing that a competent court and jury, in a jurisdiction outside of local influences where both the State and the defendant may have a fair and impartial trial, may, on evidence introduced by the Attorney General, remove from office any officer who wilfully and corruptly fails or refuses to enforce the law.

Third. Amending the prohibition law so that the verdict of a jury convicting the seller of intoxicants, after hearing the testimony of the purchase of some liquor, and the evidence of all the circumstances surrounding the sale, will be legal and will be sustained in the Court of Appeals. In other words, such an amendment as that, if a jury, after having all the testimony of the one who bought the whiskey and after understanding the relations of the seller and the buyer, and after hearing all the facts surrounding the sale, believe the defendant is guilty and convicts him, the Court of Criminal Appeals will not be forced by a mere technicality of law to reverse the case, as it is now compelled to do. Such a law as is here suggested is a part of the local option law and is now also a part of the gambling law, and is now in practical operation in the prosecution of offenders under these laws. We now seek its application to the present State-wide prohibition law, in order that this law, adopted by the people, may be effectively enforced.

Fourth. The correction of defects in the statutory law and in the procedure of the courts that will make punishment more certain to all those who trample beneath their feet the honor, the dignity, and the majesty of the written law.

**Program of Economy and Efficiency in the Administration of the Government.**

I shall also submit for your judgment and action a program of economy and efficiency in regard to the administration of our State government, among other things, the following:

First. The passage of a law that will put the work of the Market and Warehouse Department under the supervision of the Department of Agriculture, where it belongs and where it can be made to serve more efficiently the agricultural interests of the State. Similar laws will be recommended providing for the abolishment of the State Mining Board, the State Tax Board, the State Agricultural Sub-station Board, the State Tax Commission, and other boards and commissions that duplicate and overlap each other in the work of the State, providing in said laws that the useful work done by these boards and bureaus shall be transferred to other departments of the State government where said work can be more efficiently and more economically administered.

Second. The enactment of a law that will protect the State from a wicked waste of money through the medium of the extravagant traveling expenses of the army of employees who travel over the State as representatives of the various departments of the government.

Third. A law providing that all the departments of the State government shall turn all money collected into the State Treasury, and that said money can only be paid out by legislative enactment. It is not a wise policy to permit any officer or any department of the State government to collect fees and appropriate such fees as said officer or department pleases. All public funds should not only be turned into the public treasury, but it should not get out of the treasury except by direct and specific legislation. To do otherwise is to make possible leaks, and to encourage extravagance in handling public funds.

There will also be submitted for your consideration in special session a constructive, progressive, legislative program looking to the upbuilding and on-going of the State in all her vast and varied interests, the details of said program to be later worked out and at the proper time presented.

That all these and other proper legislative matters may be worked out to the best interests of the five million people whose servants we are, I invite

your suggestions, your criticisms, your opinions, and sincerely covet your co-operation and your helping hand.

As you go today from legislative halls to your respective callings, I speak to each of you individually, and indulge in the hope that when you return from your private affairs and take up again the burdens and responsibilities of legislation, that you and I will join hands in a united effort to make Texas the best place in all the world in which to live.

Yours for law enforcement, for economy and efficiency, and for constructive legislation.

PAT M. NEFF,  
Governor.
